PRESERVING memories

Memories aren't meant to be stored away or hidden in plain sight. At Uncluttered, we love photos and understand how precious they are. It's our mission to get those memories out of their boxes and off your phone so they can be loved and enjoyed every day. Our team of photo organizing professionals specializes in creating custom photo collections, so your stories, keepsakes, and precious photos are enjoyed and shared with family and friends not only today, but for generations to come.

Treasured keepsakes

Photos are a window to the past, but they're meant to be viewed, enjoyed and shared right now and in the future.

Our team can help you access and organize:

- Boxes of photos in the closet, basement, or attic
- Images on your smartphone
- Photo cards in drawers
- Slides in carousels
- Tapes in old formats you can no longer play
- Voice recordings of those no longer with us

our services include

- **Photo Organizing** Make your memories accessible. Our team will lovingly take your boxes of physical pictures, old tapes, memory cards and digital images and return them to you organized, backed up and ready to be enjoyed.
- **Digitizing** Keep your memories safe by backing up and digitizing photos in a primary file and two backups.
- **Photo Sharing** Share the stories your photos were destined to tell. We can recommend ways to showcase your newly organized memories.
